### Congressman Morgan Luttrell Staff Tour

This month, SJRA's Lake Conroe Division, along with Montgomery County Constable Precinct 1, toured Congressman Morgan Luttrell's staff around Lake Conroe and the dam. The group had a great time seeing all the work both SJRA and the Constable's office do. We are grateful for their service to our community and proud to work for Montgomery County water!

It's summer time which means SJRA's Lake Conroe Division is working hard to transplant native plants from their nursery to Lake Conroe to nurture the ecosystem of the lake.

To learn more, watch our video [here](#).

The Lake Conroe Division's primary function is the operations and maintenance of the Lake Conroe Dam, reservoir, and spillway structures, for the purpose of safely passing storm events through the reservoir while maintaining the structural integrity of the Dam.

## Water Conservation

As the warmer weather increases and our blooming plants require water, it is

important to keep in mind water conservation tips. Did you know that you should water once every five days? This encourages deeper, more drought-tolerant roots.

The San Jacinto River Authority (SJRA) receives no money from the state, nor does it collect any type of taxes.

SJRA's mission is to develop, conserve, and protect the water resources of the San Jacinto River basin. Covering all or part of seven counties, the organization's jurisdiction includes the entire San Jacinto River watershed, excluding Harris County. The SJRA is one of two dozen river authorities in the State of Texas, and like other river authorities, its primary purpose is to implement long-term, regional projects related to water supply and wastewater treatment.
